FORMULAE LIST

Circumference of a circle:

Area of a circle: $A=\pi r^2$ Curved surface area of a cylinder: $A=2\pi rh$

Volume of a cylinder: $V = \pi r^2 h$

Volume of a triangular prism: V = Ah

Theorem of Pythagoras:

 $C = \pi d$

$$\boldsymbol{a}^2 + \boldsymbol{b}^2 = \boldsymbol{c}^2$$

Trigonometric ratios in a right angled triangle:

$$\tan x^{\circ} = \frac{\text{opposite}}{\text{adjacent}}$$

$$\sin x^{\circ} = \frac{\text{opposite}}{\text{hypotenuse}}$$

$$\cos x^{\circ} = \frac{\text{adjacent}}{\text{hypotenuse}}$$

Gradient:

Here is part of a French Railway timetable for a high-speed train.

| Distance from Paris (km) | | |
|-----------------------------|-----------|-------------|
| 0 | Paris | Depart 1649 |
| 512 | Lyon | Depart 1900 |
| 617 | Valence | Depart 1955 |
| 742 | Avignon | Depart 2051 |
| 863 | Marseille | Arrive 2144 |

(a) How many kilometres is it from Valence to Marseille?

(b) Calculate the journey time from Valence to Marseille.

(c) Find the speed of the train from Valence to Marseille. Round your answer to the nearest kilometre per hour.

3. The Computer Store buys this computer for £250 and sells it to make a profit of 40%.

(a) What is the selling price of this computer?

2

(b) The Computer Store adds 20% to the **selling price** when a customer buys the computer on hire purchase.

Hire purchase terms are a £30 deposit followed by 24 equal monthly payments.

Calculate the customer's monthly payment.

| 11. | A house loses heat through its roof, walls, windows and doors. |
|-----|----------------------------------------------------------------------------------|
| | In the Grant family's bungalow 23% of its heat loss is through the roof. |
| | The total heat loss from the house costs the Grant family £650 each year. |
| | |

(a) Calculate the annual cost of the heat loss through the roof.

(b) If the Grant family insulate their loft, the heat lost through the roof will be reduced by two thirds.

How much money will they save each year if they insulate their loft?

(c) It will cost the Grants £750 to insulate their loft.

How long will it take them to recover their expenditure on the insulation?
